[00:00:12](#) Jack

You can go back and you can go to our website at.

[00:00:16](#) Jack

A-Z.

[00:00:16](#) Jack

Englishpodcast.com and you can listen to the first episode of Oreo Oreo.

[00:00:22](#) Jack

Is a tool for.

[00:00:25](#) Jack

Giving an opinion speech a very short response like a one minute response and it stands for O Opinion R reason E examples and O opinion restated. So Oreo it's a very useful speaking test tool.

[00:00:45](#) Jack

And so social today I've got one for us.

[00:00:49](#)Jack

We're both going to do our Oreos.

[00:00:51](#)Jack

And this this one is a would you rather Oreo?

[00:00:55](#)Jack

So I think would you rather is kind of perfect for Oreo and so?

[00:01:00](#)Xochitl

I agree.

[00:01:01](#)Jack

OK, so this one is.

[00:01:03](#)Jack

Would you rather go into the past and meet your ancestors or go into the future and meet your great great grandchildren?

[00:01:16](#)Jack

That's the question would you rather?

[00:01:20](#)Xochitl

OK, so opinion reason example opinion restated.

[00:01:26](#)Jack

That's right.

[00:01:26](#)Jack

And Kevin always said one reason and two or three examples.

[00:01:32](#)Jack

OK. Yeah.

[00:01:34](#)Xochitl

I think I would rather go into the future and meet my great, great grandchildren because we kind of have some idea of our history, but we have no idea about our future.

[00:01:50](#)Xochitl

And I think I would enjoy.

[00:01:53](#)Xochitl

The certainty of knowing somewhat how things turned out.

[00:01:59](#)Xochitl

For example, if you meet your great, great grandkids, you'll know who you married.

[00:02:05](#)Xochitl

You'll know at what age you had kids.

[00:02:07](#)Xochitl

You might know what profession you ended up sticking out with or like a line.

[00:02:13](#)Xochitl

Some kind of like plot line for your life.

[00:02:17](#)Xochitl

You'll get to know how your kids turned out, and you'll get to know how your grandkids turned out and how your great kids turned out.

[00:02:26](#)Xochitl

You'll have like a an outline for how the future is shaping up, which you wouldn't have seen otherwise.

[00:02:32](#)Xochitl

Umm so for me I think those are the reasons I would primarily want to see meet my great, great grandchildren if I had.

[00:02:40](#)Xochitl

A chance and not.

[00:02:42](#)Xochitl

Travel in the past, I'd rather travel to the.

[00:02:46](#)Jack

OK, nice.

[00:02:47](#)Jack

Alright, alright, I'm.

[00:02:50](#)Jack

I'm going to give my Oreo, but I I think we're kind of in the same the same boat.

[00:02:56](#)Jack

Actually I I did a a Jack chat episode a little while back about my great great grandmother.

[00:03:06](#)Jack

She when she was uh.

[00:03:09](#)Jack

Three or four years.

[00:03:09](#)Jack

Old she got her foot stuck in a railroad.

[00:03:15](#)Jack

And the train ran over her foot as a child in the late 1800s. This happened. And in in Michigan, and she she lived and she was tough, tough as nails. So some of our listeners out there know.

[00:03:34](#)Jack

So that for me, that's kind of like I can go into the past already and do that.

[00:03:40](#)Jack

So I'm going to do my Oreo.

[00:03:42](#)Jack

Would you rather about the future as well, so here we.

[00:03:46](#)Jack

I would rather go into the future and meet my great, great grandchildren because I am so curious to learn about the future of our planet and also the future life lives of my great, great grandchildren.

[00:04:05](#)Jack

For example, I want to know if we solved some of the problems for the planet such as like pollution.

[00:04:16](#)Jack

Or rising sea levels, air quality, space travel.

[00:04:22](#)Jack

Maybe one of my my great, great grandchildren will live on Mars or on the moon or something like that.

[00:04:31](#)Jack

So I would want to know those things.

[00:04:34](#)Jack

I would.

[00:04:34](#)Jack

I'm very curious.

[00:04:36](#)Jack

And so for those reasons, I would rather go into the future and meet my great, great grandchildren.

[00:04:44](#)Jack

So there you go.

[00:04:45](#)Jack

That's my my Oreo.

[00:04:47](#)Jack

I think we're in the same.

[00:04:48](#)Jack

I think our our curiosity is what drove our answers.

[00:04:54](#)Xochitl

Which makes sense because we both area science and astrology.

[00:04:56](#)Xochitl

So we're curious by nature, would think it's interesting because you actually have a daughter, so it's even cooler for you because you'll get to find out like who she marries and like what she ends up doing with her life.

[00:04:58](#) 발표자

Ohh, there you go.

[00:04:59](#) 발표자

That's good.

[00:05:11](#)Xochitl

And I think that's really fun.

[00:05:13](#)Xochitl

That's a.

[00:05:13](#)Xochitl

Great aspect of it.

[00:05:16](#)Jack

Yeah, I'm. I'm what I'm really curious is like, I wonder if we have a whole line of ballet dancers now in, in, in our family, because that's my my daughter's dream is to be a ballet ballerina.

[00:05:30](#)Jack

And if she has a daughter, and I'm sure her daughter will be a ballerina, and so that we'll see if that legacy.

[00:05:37](#)Jack

Persists throughout the future.

[00:05:41](#)Jack

That would be kind of interesting to to know.

[00:05:43](#)Xochitl

Yeah, that would be really interesting.

[00:05:47](#)Xochitl

OK listening, I hope you enjoyed that episode.
